

## Earth Satellite Corporation Inc.

### Data Distribution Rights

- *Consistent with its proposal for Phase I, EarthSat will not place any restrictions on any Phase II data products delivered to NASA. Restrictions may be imposed on Ground Receiving Station (GRS) Landsat scenes, which are less than ten years old. Every effort will be made to negotiate arrangements for the unrestricted use of all data. All scenes older than 10 years will not have any restrictions on use or distribution, unless mandated by NASA.*
